Profile

Ethical hacker specializing in web security and pentesting. Experienced in identifying and documenting vulnerabilities such as OWASP Top 10, SQL Injection, XSS, and IDOR. Hands-on experience with tools like Burp Suite, sqlmap, and ffuf. My goal is to strengthen the security of real-world systems by applying advanced attack methodologies and conducting efficient, results-driven testing.

Skills

Pentesting
- API Testing
- Cross-Site Request Forgery (CSRF)
- Cross-Origin Resource Sharing (CORS)
- Server-Side Request Forgery (SSRF)
- SQL Injection
- NoSQL Injection
- GraphQL API vulnerabilities
- Clickjacking
